Status of the Coordinated Drafting  
of  
DCIDs within CIA

1. This updates the status reported 23 June 1972, and tentatively identifies proposed numbers for DCIDs being drafted in the "Revised Series."
2. The designees briefly discussed and agreed that a new numbering system for DCIDs would be helpful. It was agreed that DCID numbers in the new system should so far as possible:
  - a. Relate to the NSCID, by number, which authorizes or directs the action being taken by the DCI; and
  - b. Relate to the USIB committee DCID charter, by number, in those cases in which responsibility for maintenance of the directive falls to the initiative of the chairman of such committee.

Note the attachment to this status report. The attachment lists DCIDs of the "Revised Series" in accordance with the proposed numbering system. It also indicates present thinking for action on items deferred by the designees.

3. The following items are ready for multilateral coordination:

1/1	Production of National Intelligence Estimates

-	Composition of Committees of the USIB
